

Manufacturer's Certification Statement

For Energy Efficient Properties purchases

Under Title 26- Internal Revenue Code § 25D, Energy Efficient Property, the IRS allows up to a 30% federal investment Tax Credit (ITC) for installing energy efficient property as a “qualified solar electric property expenditure.” A “qualified solar electric property expenditure” is an expenditure for property which uses solar energy to generate electricity in a qualified dwelling unit located in the United States.

Sollega, Inc. designs and manufactures solar racking solutions and hereby certifies that the Sollega FastRack FR510 system, including all related components such as racking units, fasteners, ballasting options, and mounting accessories, qualifies as solar electric property and therefore may be eligible for the federal solar tax credit when installed as part of an energy-efficient property.

Sollega, Inc. is not a tax advisor. Taxpayers claiming a tax credit should consult with a qualified tax professional for any specific questions. Sollega, Inc. is not responsible or liable for the taxpayer's eligibility to receive tax credits. This certification is not intended to constitute legal or tax advice.

Sincerely,

Elie Rothschild
CEO, President
